RESEARCH AT CHALAPATHI UNIVERSITY

Vision • Mission • Objectives

VISION

To be a research-driven university recognised for high-quality, ethical and interdisciplinary research that creates new knowledge, drives innovation and contributes to the technological, economic and social development of Andhra Pradesh and the nation.

MISSION

M1. **Research culture:** To build a vibrant research culture across all Schools, led by 25 Ph.D.-qualified faculty who mentor scholars through every stage of their doctoral work.

M2. **Quality doctoral education:** To offer full-time and part-time Ph.D. programmes of national standard, in line with the UGC Ph.D. Regulations and the National Education Policy 2020.

M3. **Infrastructure and centres:** To develop and use advanced research facilities, including the SAP University Alliances Lab, the Robotics Research Laboratory and specialised departmental Centres for Research Activities.

M4. **Interdisciplinary and collaborative work:** To encourage research across disciplines and partnerships with industry and recognised research organisations, including through co-supervision.

M5. **Integrity and impact:** To uphold the highest standards of research ethics and academic integrity, and to promote publication in reputed indexed journals and open access to research outputs.

OBJECTIVES

1. **To admit capable scholars** through a transparent, merit-based process using CU-RAT and interviews, with due recognition of NET/JRF/SLET/GATE/APRCET qualifications.
2. **To provide strong research foundations** through doctoral coursework in Research Methodology, Research & Publication Ethics and discipline-specific subjects, including NPTEL/SWAYAM options.
3. **To ensure timely, quality progress** through six-monthly Research Review Meetings, Research Review Committees and Doctoral Research Committees with external subject experts.
4. **To promote high-quality publications** in Scopus and Web of Science indexed journals and reputed conferences, carrying the Chalapathi University affiliation.
5. **To make full use of research facilities:** the SAP University Alliances Lab for ERP, analytics and digital transformation; the Robotics Research Laboratory for robotics, automation and intelligent systems; and departmental Centres for Research Activities in every School.
6. **To uphold academic integrity** through plagiarism checks (similarity index of 20% or less) and adherence to the UGC Academic Integrity Regulations, 2018.
7. **To maintain rigorous, independent evaluation** of theses by experts from IITs, NITs, IIITs, Central, State and private universities, and make every thesis openly available on Shodhganga.
8. **To support and include scholars** through stipends for full-time scholars, flexible full-time/part-time registration, and provisions for women scholars and persons with disabilities.
9. **To address regional and national needs** by focusing research on problems relevant to society, industry and the development of Andhra Pradesh.
